THE ART CAMPER

WORKSHOPS ON WHEELS

The Art Camper is mainly used for after school activities, transforming local neighbourhoods into active art spaces

OUR VISION AND PURPOSE IS TO

- Create opportunities for children and young people in the Municipality of Aarhus to reflect on and engage with the world through artistic expression, with a particular emphasis on visual and literary forms.
- Contribute to the development of an artistic 'food chain' by involving schools and educational institutions in the Municipality of Aarhus in developing and sustaining the artistic interests and education of children and young people.
- Strengthen and challenge children and young people's engagement with artistic expression through education, projects, exhibitions, and artistic communication at an advanced level.
- · Participate and collaborate with local, national, and international visual art schools -and similar institutions wherever possible.
